25X1 * [redacted] Comment. After a prolonged period, coal stocks showed a rising tendency. As compared with the last reported status, they increased by 3,618 tons, most of them hard coal, to a total of 224,951 tons. According to the daily coal consumption quota in use, this quantity is adequate for 12.7 days' operations. The backlog of undispatched cars was normal, but the number of operational railroad cars again decreased slightly.
